SMART *zero

Wired Connection Setup Guide

Thank you for purchasing SMARTzero. Before using SMARTzero for the first time, please read this simple guide to help you get setup.

Package contents

- Receiver
- USB cable & plug
- Receiver mounting template and fixing screws
- Network cable
- Temperature & Humidity sensor(s)
- Quick installation guide

Step 3

Push down the **power button** on the **Receiver**.

Quick Installation Guide

Step 1

Connect the supplied **Network cable** from your broadband router to the network port on the **Receiver**.

Step 4

For each **Temperature & Humidity sensor**, press & hold the power button until a solid blue LED light is displayed. Make a note of the **serial number** against the appliance name to be monitored and place the **Temperature & Humidity sensor** into your appliance.

Step 2

Connect the **Receiver** to a power outlet using the **USB** cable & plug.

Step 5

The wired installation is now complete and now all that remains is to configure your SMARTzero portal by logging into www.smartzero.cloud

Quick Installation Guide

Wireless Connection Setup Guide

For Wireless setup, please follow **Step 2** and **Step 3** on the reverse side and then continue with **Step 4** below.

Step 4

On a smart device, display all available Wi-Fi networks and connect to the **Receiver**. The serial number can be found on the rear of the **Receiver**.

< WI-FI	WI-FI Direct	Advanced	
On			
	GW-AC233FC0503A nternet may not be available	erial Number on ear of Receiver	\$

Step 7

Select your Wi-Fi network from the "Available Access Point" drop down. Then enter the password of your Wi-Fi network into the "Key" field.

Ethernet			
Wireless			
Available A	Access Point		
BTHub5-	23W2		-
	ub5-23W2		
	A4:23:29:5F: on: WPA2 PS		
signal: -7	3	(
channel:	11		

The configuration has been saved. You can click Apply to take effect immediately or reboot it later to take effect. Apply Cancel Encryption WPA2-PSK *

Step 6

Navigate to the "Network" tab and enable the "Wireless" switch.

1:
Ø
_

To apply the changes, click "Connect" and "Apply" in the

pop out window to reboot the Receiver.

Open a web browser on the smart device and enter

192.168.99.1 into the address bar. To login, enter the

default username: "admin" and password: "SMARTzero".

Step 5

Step 8

Step 9

The wireless installation is now complete. Please **follow Step 4** on the reverse side on how to place **Temperature & Humidity sensor(s)** into your appliance(s). Once complete, configure your SMARTzero portal by visiting www.smartzero.cloud
