

## SMARTzero Customer Testimonials

“ SMARTzero was easy for us to use from the very start. The hardware arrived in a smart looking box and within an hour my SMARTzero portal was setup using the excellent quick installation guide provided. ”

The business used to check compliance by manually taking readings from each appliance every 4 hours. Investing in SMARTzero has removed this manual process as well as providing them the following benefits:

- ▶ Automated recording of temperatures from each appliance which reduces the use of paper, human error and employee time.
- ▶ Temperature logbook reports directly sent to their inbox every day, week and month which ensures they are prepared for any audits that may occur on an annual basis.
- ▶ It provides the business an early warning system for any appliances that have failed by sending alerts direct to the employee's mobile phones. This enables them to act quickly, rescue stock and avoid a loss in revenue.
